Subject: Submission of Proposal of Production of Bio Fuel on culturable wasteland of Rajasthan through Jatropha and other such non food tree borne oil seeds

In view of strong prospects of production of Bio Fuel on culturable wasteland as well as on degraded forest land of Rajasthan through Jatropha and other such tree borne oil seeds, the Government of Rajasthan has formulated policy to promote Bio-Fuel based projects.

Bio Fuel Authority (BFA) now invites the proposal from interested companies, societies, Public Sector undertaking (PSUs) who have the experience/ expertise in cultivation of Jatropha on waste land and producing bio-diesel from it. The proposal shall be in accordance to the Rajasthan land revenue (allotment of waste land for bio- fuel plantation and bio-fuel based industrial purposes) rules, 2007 notified by the revenue department of Government of Rajasthan". In this regard "Rajasthan Bio fuel Policy may also be consulted placed at www.biofuel.rajasthan.gov.in"

Tentative objectives of the Project is

- To develop wasteland of Rajasthan state.
- To take up research & development work for package of practice.
- To establish Processing plant of Bio fuel.
- To establish Nursery for developing good quality Planting material
- To Provide employment to local people.
- To generate revenue / income from the sale of Bio fuel in terms of Royalty.

You are requested to submit the initial proposal to undersigned, mentioning your Profile, area of Business operations of similar works undertaken in the past etc. at the earliest.

The Government is keen interested to sign a MOU in this regard under the banner of "Resurgent Rajasthan" Any clarifications & additional information, if required, can be sought from the office of Bio fuel Authority, Yojna Bhawan, Jaipur.
